PROFESSIONAL SUMMARY

I am an IT Desktop Support Engineer with over 6 years of experience in providing end-to-end technical support in enterprise environments. I have worked with well-known organisations like Kotak Mahindra Bank and Ankura Hospitals, where I handled everything from day-to-day desktop support to managing MDM solutions like Intune, JAMF, Hexnode, and Kandji. I am experienced in SCCM-based patch management, incident handling through ServiceNow and BMC Remedy, and supporting both Windows and macOS environments. I enjoy working with teams, solving technical problems quickly, and making sure end-users always get the best support possible.

PROFESSIONAL EXPERIENCE

Desktop Support Engineer | *Kotak Mahindra Bank, Hyderabad*

Dec 2022 – Feb 2025

Payroll: Reno Vision Automation Services Pvt. Ltd. (Client – Kotak Mahindra Bank Ltd.)

- Handled all incidents and service requests through ServiceNow and BMC Remedy, making sure every issue was resolved on time as per SLA commitments.
- Provided day-to-day technical support for desktops, laptops, and peripheral devices across the organisation.
- Set up and managed MDM solutions including Intune, JAMF, Hexnode, Kandji, and JumpCloud for device provisioning and compliance on both Windows and macOS systems.
- Planned and executed SCCM-based patch management to keep all systems up-to-date and protected from vulnerabilities.
- Monitored and maintained Citrix VDI infrastructure, and worked with other IT teams to resolve deployment issues quickly.
- Supported Microsoft Teams conferencing equipment to ensure all meetings ran smoothly without any technical interruptions.
- Created onboarding checklists covering account creation, laptop setup, and software installation so new employees could start work without any delays.
- Prepared a proper offboarding checklist covering data backup, laptop collection, and access removal to ensure nothing was missed.
- Managed user accounts and access permissions across G Suite, Slack, and Atlassian platforms.
- Troubleshoot Cisco NAC issues and resolved both wired and wireless network connectivity problems for users.
- Conducted regular device inventory audits and managed vendor relationships to ensure timely hardware procurement and lifecycle management.
- Was available on-call for high-priority IT incidents and responded quickly to minimise any downtime.
- Trained newly joined employees on IT systems, internal tools, and company procedures.

IT Support Engineer | *Ankura Hospitals, Madeenaguda*

Jul 2021 – Oct 2022

- Provided technical support for enterprise-level ICT applications and the hospital's day-to-day IT systems.
- Configured and managed devices using Microsoft Intune to ensure compliance and smooth remote device management.
- Automated OS patch updates using SCCM, which helped reduce downtime and improved efficiency across multiple environments.
- Provided dedicated IT support during night shifts to make sure critical hospital operations were never affected.
- Resolved SaaS application issues raised by users, documented bugs properly, and coordinated with internal team.
- Prepared documentation for SaaS tool integration and optimisation to help both end-users and the IT team work more efficiently.

Hardware & Network Support Technician | *Sri Lalitha Enterprises Pvt. Ltd., Peddapuram* Feb 2019 – Mar 2021

- Installed, configured, and troubleshoot employee computer systems covering hardware, software, and network-related issues.
- Provided both remote and on-site support for Citrix Virtual Desktop Infrastructure (VDI) environments.
- Led vendor meetings to discuss and finalise SLAs, ensuring service delivery always met company standards.
- Helped end-users recover lost or damaged data by following proper backup and restore procedures.
- Maintained clear and transparent communication with customers regarding product issues and their resolutions.

IT Support Specialist | *INOX Leisure Limited, Kakinada* Apr 2018 – Feb 2019

- Maintained day-to-day IT operations covering operating systems, security tools, applications, servers, email systems, and hardware.
- Managed vendor relationships for hardware procurement, timely replacements, and proper decommissioning of outdated systems.
- Streamlined the employee offboarding process to ensure company data was always protected and handled properly.

Desktop Support & Data Recovery Specialist | *Datapuro, Eluru* Feb 2017 – Mar 2018

- Identified hidden or damaged data on storage devices and resolved issues using low-level forensic analysis techniques.
- Developed and implemented data recovery plans for disaster recovery situations, ensuring critical data was successfully retrieved from faulty hardware.
- Carried out routine hardware maintenance and resolved mechanical issues including reverse scanning.
